

Hot-dry wind and high temperature data of 1960-2018 in Beijing**Data Documentation****I. Dataset/atlas content features****i. Abstract**

The main contents of the Hot-dry Wind and High Temperature Disaster in Beijing are the hot-dry wind and high temperature disaster since 1960, including the date of the hot-dry wind and high temperature disaster in the city of Beijing, etc.

ii. Elements (content fields)

Table 1 Description of data element content

| Data name | Item (field) | Field name in Chinese | Field measure unit | Field code description | Remarks |
|--|--------------|-----------------------|--------------------|------------------------|---------|
| Hot-dry Wind and High Temperature in Beijing | date | Shijian | | | |

iii. Temporal cover

The time of this dataset is 1960.5-2018.6.30

iv. Spatial cover

Beijing urban area.

II. Subject/industry scope of dataset/atlas**i. Subject scope**

170 Geosciences 17015 Atmosphere Science 1701535 Climatology
 560 Civil Engineering and Building Construction 56015 Basic Disciplines of Civil Engineering and Building Construction 5601530 Architectural Meteorology
 560 Civil Engineering and Building Construction 56055 Municipal Engineering
 570 Hydraulic Engineering 57065 Flood Control 5706510 Flood Control
 5706520 Flood Prevention
 610 Environmental Science and Technology and Resource Science and Technology, 61010 Basic Science of Environmental Science and Technology, 6101025 Environmental Meteorology.

ii. Industry scope

F Transportation, Warehousing and Postal Services, 51 Railway Transportation Industry 52 Road Transportation Industry 53 City Public Transportation Industry 54 Water Transportation Industry
 55 Air Transportation Industry
 M Scientific Research, Technical Services and Geological Prospecting Industry, 7610 Meteorological Services 7673 Planning Management
 N Water Conservancy, Environment and Public Facilities Management Industry, 7910 Food Control Management 8110 Municipal Public Facilities Management

III. Accuracy of dataset/atlas**i. Time frequency**

(Time frequency is the representation content of datasets/atlas' time frequency, such as multi-year average, average, monthly, daily, yearly, month by month, day or hour.)

ii.Spatial reference, accuracy, and granularity

(This part is the spatial reference, accuracy, and granularity of datasets/atlas. The spatial reference includes coordinate system, projection mode, elevation system, etc. Spatial accuracy means the vector data scale or raster data resolution, etc. Spatial granularity is in accordance with the continent, the state, province, county, and other divisions.)

IV. Dataset/atlas storage management

i.Data quantity

0.0103MB

ii.Type format

The dataset is stored in the hard disk and it is table data

iii.Update management

Dataset update plan: Aperiodic updating.

V. Quality control of the dataset/atlas

i.Production mode

Data of hot-dry wind and high temperature disaster in Beijing in (1960-2018) was obtained based on National Meteorological Information Center <http://data.cma.cn/>

China Meteorological Calamity Code (Beijing volume)

China Meteorological Disaster Yearbook(2005-2016)and electronic, digital, integrated conversion, standardized processing, computational simulation.

ii.Data sources (condition selection)

Source of data source: National Meteorological Information Center. <http://data.cma.cn/>

Kegang Wen.China Meteorological Disaster Code (Beijing volume) [M]. Beijing:Meteorological Press, 2005.12.

iii.Methods of the data acquisition and processing (condition selection)

Acquisition method: Book sorting on the net and field survey.

Processing method: Data registration and Object-oriented classification method.

VI. Sharing and usage method of the dataset/atlas

i.Sharing methods and restrictions

Fully opened sharing

ii.Contact information of the sharing service (condition selection)

Contact Information for Service : No. 46,Zhongguancun South Street, Haidian District, Beijing

iii.Conditions and methods of usage

The dataset can be read by excel software

VII. Intellectual property rights of the dataset/atlas

i.Property rights (optional)

Dataset ownership information:Institute of Geographic Sciences and Natural Resources Research, CAS

ii.Reference method of the dataset/atlas

<Hot-dry Wind and High Temperature in Beijing Dataset/Institute of Geographic Sciences and Natural
Resources Research, CAS>

iii.Usage contacts of the datasets/atlas

Name: Service group of Disaster Risk Reduction Knowledge Service System of IKCEST

Address: A11 Datun Road, Chaoyang District, Beijing .

Postcode: 100101

Telephone: 010-64889048-8006

Email: ikcest-drr@lreis.ac.cn

VIII. Others (optional)

In addition to the above, other information must also be explained.
